

**"AND WE THOUGHT HTC WAS
JUST THE PHONE COMPANY."**

"We didn't realize HTC's capabilities until we saw a presentation at the Myrtle Beach Area Hospitality Association's Annual Meeting. The breadth of HTC's skills and services really impressed us: until then, we thought they only provided phone service. Now we have their phone equipment and cell service, and we are about to connect to their fiber network, which will give us data and video as well."
