What can an HTC Wi-Fi Hot Spot in A Box do for your bottom line?

When your customers spend more time with you, they spend more money with you. This is the simple reason why your business should host an **HTC Wi-Fi Hot Spot in A Box**.

An HTC Wi-Fi Hot Spot in A Box lets your customers browse the Internet on their laptops from your business. **It's perfect for restaurants, bookstores, boutiques, even doctor offices and auto repair lobbies and waiting rooms.** It will increase your customer traffic as well as providing word-of-mouth advertising. And it's designed to be part of your existing office network so **you can work while they surf.**

Getting started.

An HTC Wi-Fi Hot Spot in A Box is yours for the low monthly rate of **\$80 a month**, and includes:

- Hot Spot Equipment for your office and customers
- Support and Maintenance by HTC
- Family friendly surfing security blocks inappropriate web content
- Controlled Surfing

\$80
per month*

Support from the company you can count on.

HTC has been a valued partner with local businesses **for more than 50 years**, providing a full range of **cutting-edge telecommunication services** from the latest in **business telephone systems** to the fastest in **data connections** and **high speed Internet access.**

Contact **HTC Business Solutions** and discover how an **HTC Wi-Fi Hot Spot in A Box** can help you increase your bottom line.
