

AT&T International Day PassSM: Eligible domestic postpaid wireless plan required. Provisioning: Must be provisioned on a per-device basis before use.

Once you add this option to your device, International Day Pass will stay on your account until you remove it at att.com/myatt, or by calling 800-335-4685.

Business customers can remove it using the Premier online tool, by calling 800-331-0500 or by contacting their AT&T account representative.

Use and assessment of fee: Once you add this option to your device, the first time you use data or voice, or send a text message in an International Day Pass (IDP) country, you'll automatically be charged a \$10 daily fee. The fee covers additional data, voice, or text messages sent for 24-hours from the initial use in any IDP country during that period.

You'll be charged an additional \$10 fee for all subsequent 24-hour periods in which you use data or voice, or send a text message on a device set up with International Day Pass in an IDP country until you cancel the service.

Incidental data usage: Apps on your device, including the AT&T Global Wi-Fi app, continue to use data even when you may not be aware of the usage. Such incidental data usage may trigger the \$10 daily fee. To avoid unintended use of International Day

Pass, turn off the roaming feature for your smartphone or device.

Billing: Your International Day Pass data and voice usage will generally be applied to the monthly bill period / data amount of your domestic plan at the time it's used. However, because of the way we receive reporting from our international partners, voice or data usage may not match your exact dates of travel, and voice or data usage may be applied to your subsequent bill period.

Data: International Day Pass lets you use data in all IDP countries without roaming charges. Data will be drawn from your domestic plan allowance. Additional or promotional data may not be available for use in destinations outside the U.S. If your domestic plan includes Stream Saver, it will apply to your international package or feature.

See att.com/stream saver for more details. For a list of IDP countries, go to att.com/global countries. Availability and quality of coverage and services while roaming are not guaranteed.

Data overage: If you go over the amount of data in your qualified plan or other allowances during your bill period, overage charges, and/or data speed reduction of up to 128Kbps (2G speeds) apply in accordance with the terms of your domestic plan. If your data speed is slowed, all your data use,

including audio and video streaming, picture and video messaging, and other types of data use will be impacted and may not work. For devices on an unlimited data plan, AT&T may slow speeds after 22GB of data use.

See att.com/broadbandinfo for data speed details.

Voice: For phones. International Day Pass allows you to use the calling features of your domestic plan within and between IDP countries and from IDP countries to the U.S. Calls and minutes of usage will be drawn from your domestic voice plan allowance.

You may be charged for calls to special or premium service numbers. Calls to other countries: Calls from IDP countries to non-IDP countries will incur International Long Distance (ILD) charges. Per-minute pay-per-use rates apply unless you add an International Long Distance service package to the device making the calls. Rates subject to change without notice.

To see what it costs, go to att.com/worldconnect.

Unlimited text: Standard messaging for phones: Requires that your domestic plan includes texting. Includes an unlimited number of messages up to 1MB in size within and from an IDP country to more than 190 countries for text messages, and more than 120 countries for picture and video messages.

We may add, change, and remove included countries at our discretion without notice. Messages sent through applications like iMessage or Hangouts may incur data or other charges. Details at att.com/text2world.

Usage restrictions: If international voice, text, or data use exceeds 50% of total voice, text, or data usage for two consecutive months, the IDP feature may be removed. Service restrictions: Not available for wireless home phone services, connected vehicles, or connected devices.

Pay-per-use international rates will apply. International use aboard cruise ships isn't included.

Unlimited Wi-Fi: Available at participating hotspots and requires download and activation of AT&T Global Wi-Fi app on eligible devices and compatible operating systems. See att.com/intlwifi for more information.

Canada and Mexico: You won't be charged the \$10 fee for International Day Pass in Canada or Mexico if you have a domestic plan or an international coverage option that includes usage in Canada or Mexico at no additional charge.

AT&T PassportSM: For devices with an active International Day Pass and an AT&T Passport plan, International Day Pass charges will apply in IDP countries, even if you have AT&T Passport.

Data, voice, and text from AT&T Passport can't be used to avoid voice and data overage charges incurred in IDP countries.
