Thunderbird Configuration

1. Open Thunderbird

The Mail Account Setup page appears:

Set Up an Existing	g Email Account		×
Your <u>n</u> ame:	sccoast	Your name, as shown to others	
Email address:	admin@sccoast.net	Your existing email address	
<u>P</u> assword:	•••••		
	Remember password		
			_
<u>G</u> et a new email address <u>C</u> ontinue C <u>a</u> ncel			

- 3. Enter the following settings:
 - Your name: Enter the name you would like displayed. This shows in the message 'From' details.
 - Email address: Enter your full sccoast.net email address.
 - **Password**: Enter your email password. (The password is case-sensitive. Be sure to enter the password exactly as it was created.)
 - **Remember password**: Verify this box is checked to ensure you will not need to enter your email password each time Thunderbird is opened.
- 4. Once you enter the information above, click **Continue** on the bottom right.

The following settings appear:

Set Up an Existing Email Account				
Your <u>n</u> ame:	sccoast	Your name, as shown to others		
<u>E</u> mail address:	admin@sccoast.net	Your existing email address		
<u>P</u> assword:	•••••			
	Remember password			
Configuration found by trying common server names				
● IMAP (remote folders) ○ POP3 (keep mail on your computer)				
Incoming: IMAP, imap.sccoast.net, STARTTLS				
Outgoing: SMTP, smtp.sccoast.net, STARTTLS				
Username: a	dmin			
Manual config Cancel				

- The correct settings for the sccoast.net mail server should appear. The Incoming Server should be either imap.sccoast.net or pop.sccoast.net. The Outgoing Server is always smtp.sccoast.net.
- 6. Click **Done** to complete the setup.
