

1. Go to your **Settings**.
2. Look for **Accounts and backup**.

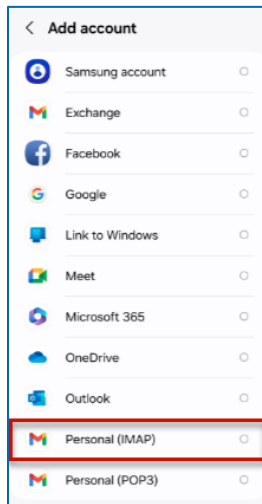

3. Select **Manage accounts**.

4. Click **Add account**.

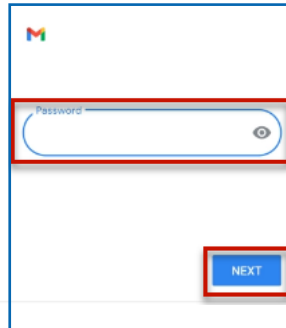

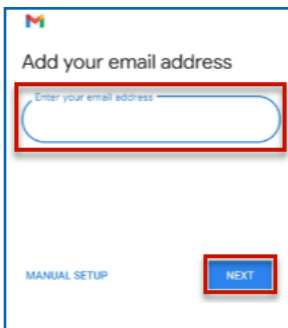

5. Select the server type. Click **Personal (IMAP)**.

6. Type in your email address. Then click **Next**.

7. Enter your password, then click **Next**.

Note: If you are routed to the image below that means that your account was recognized and set up automatically.
