

Access Programming Through TV Everywhere

Desktop Application:

Step 1: To launch your TV Everywhere Access, you will log into your My Account and go through Steps 1-4 as indicated in the [TV Everywhere Account Setup Guide](#). You will now see the account link you created.

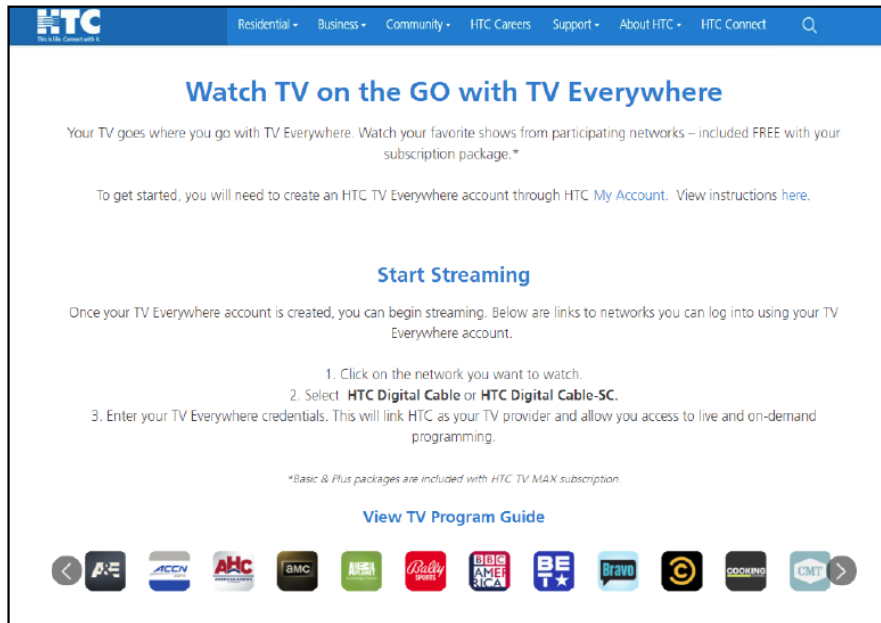

Step 2: Depending on your video subscription, you will see one or multiple options. Click on the 'TV' icon.

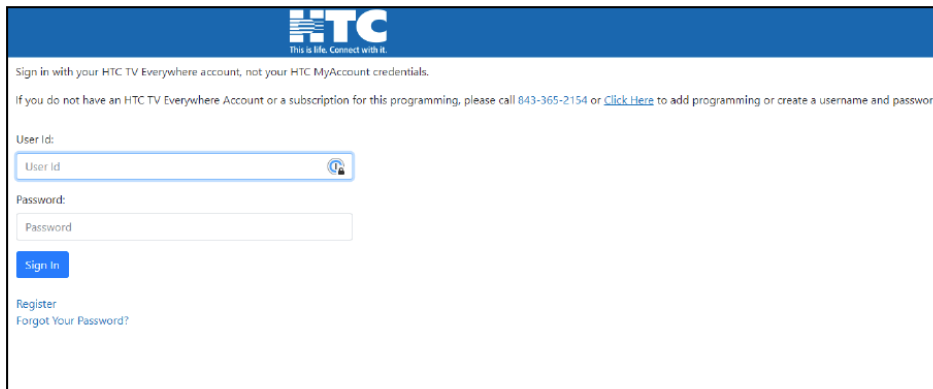

Step 3: You'll come to the TV Everywhere Guide page, with the scrolling list of channels, accessible with your TV Everywhere account. Click on the desired Channel icon, which will take you to the channel's splash screen

Step 4: Search the list of TV providers search and select **HTC Digital Cable** or **HTC Digital Cable-SC**. As long as you're signed into TV Everywhere, you should easily be able to navigate one of the linked pages and begin watching immediately

You can also go directly to the [TV Everywhere page](#). Click on the streaming channel of your choosing and find **"Link TV Provider"**. **Follow the instructions in Step 4** and a login page will appear. Once you add your login credentials, the screen will refresh and you'll be able to watch the channel.

You can use these links to stream channels through the Amazon Fire Stick, Roku or other streaming applications. **You may be asked on occasion to relink the account** – just enter the credentials as requested and your streaming experience will continue.

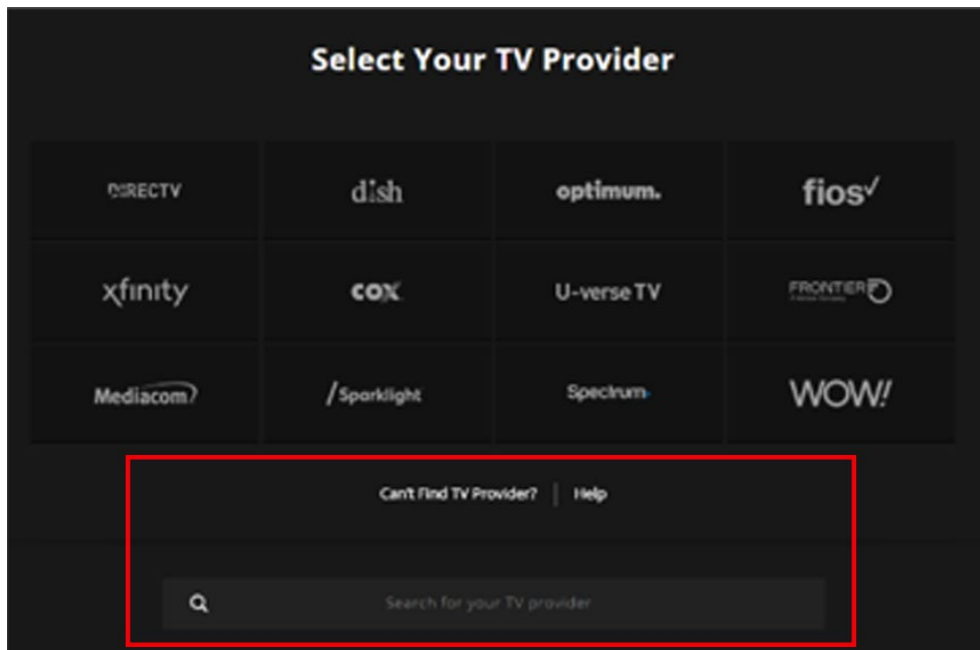

Accessing on a Mobile Device (cellphone, tablet, etc):

Step 1: Download the Network application that you want to watch from your device's app store. You can also go directly to the website to launch the channel.

Step 2: If downloading an app, open the application and access the **'Settings'** option for the application. If not, proceed to **Step 3**

Step 3: Locate and select **Login/Sign in with TV/Cable Provider**

Step 4: Select **View More Providers**, View All Providers and search for **HTC Digital Cable** or **HTC Digital Cable – SC**

Step 5: Enter your TV Everywhere credentials. This will link HTC as your TV provider and allow you access to live and on-demand programming

You may be asked on occasion to relink the account – just enter the credentials as requested and your streaming experience will continue.
